**Four HI5 redemption centers temporarily closed due to mechanical issues**

The four HI5 bottle redemption centers operated by Kaua'i Community Recycling Services (KCRS) will be temporarily closed beginning Monday, April 25, due to mechanical problems with the scale that weighs containers prior to processing.

The location of the centers and days of operation are as follows:

- Kapa'a, 962 Kipuni Way, Arzadon Industrial Park, Monday to Friday
- Kīlauea, 5-2723 Kūhiō Highway, behind Kaua'i Mini Golf, Tuesday and Friday
- Kekaha, Kekaha Road, across from the old mill, Wednesday and Saturday
- Kōloa, 2810 Po'ipū Road, next to the fire station, Thursday and Sunday

The KCRS centers will resume service once repairs have been made. It is anticipated that these sites will reopen by Wednesday, April 27. For updates, please call James Higginbotham at 645-1676.

The redemption center at the Kaua'i Resource Center in Līhu'e, as well as those operated by Reynolds Recycling in Līhu'e and Kapahi will be open as usual. Please go to [www.kauai.gov/hi5](http://www.kauai.gov/hi5) for information on these centers, or call the County Recycling Office at 241-4841.
